SESSIONS

Karin Cyganovich

Just Change One Thing:

Are you tired of being the only one asking questions in your classroom? This session will cover a research based technique to have students generating, prioritizing and sharing out questions that can drive instruction.

Kimberly Alexander

Dr. Paul Vermette

Applying the ABC's of Learning

Learn to apply 26 scientifically proven approaches to how we learn, how they work and when to use them in the NGSS-centered secondary classroom.

Joseph Zawicki

Kathleen Burke

Implementing the NYSSLYS: Evaluation Resources

The NYSSLIS supported classroom exploration of phenomena using 3-D learning with the integration of scientific and engineering practices, disciplinary core ideas and cross-cutting themes.
